

2023 CAPER (PY4)

The 2022 Consolidated Annual Performance and Evaluation Report (CAPER) includes Narrative Responses to questions that CDBG, HOME, HOPWA, and ESG grantees must respond to each year in order to be compliant with the Consolidated Planning Regulations. (PY = Program Year)

GRANTEE: City of Beloit **CON PLAN PERIOD: 2020 to 2024**

CR-05 - Goals and Outcomes

Progress the jurisdiction has made in carrying out its strategic plan and its action plan. 91.520(a)

This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

Throughout 2023, the City of Beloit continued to develop the activities and projects that were undertaken by Community Housing Development Organizations (CHDO) in the two designated Neighborhood Revitalization Strategy Areas. Although this portion of the approach is not funded by CDBG, the City of Beloit has fostered a successful partnership with ACTS Housing, to encourage and support more homeownership within the city. This effort, along with the continued CDBG funded efforts have resulted in a boost of homeownership, neighborhood pride, and increased property investments.

In addition to the NRSA activities, the City of Beloit also funded the following activities in 2023:

Housing Rehabilitation: The City's Housing Rehab Loan Program provided home improvement loans with low or no interest, deferred, grants, or forgivable terms to households through-out the city.

Health Services: HealthNet provided medical, dental and behavioral healthcare to 31 Beloit residents with no insurance. This agency allows people to obtain services that they would otherwise not be able to afford or obtain. This access, in turn, contributes to continued employment and maintaining affordable living expenses.

Homeless and Prevention Services: The Defy Domestic Abuse Beloit program provided short-term emergency housing and case management to 74 survivors of domestic violence. Family Promise of Greater Beloit provided short-term shelter, rent assistance, eviction prevention, and case management to 167 residents. Project 16:49 provided transitional living facilities and case management to 21 unaccompanied youth. ECHO was able to provide emergency eviction prevention services to 32 households. Beloit Meals on Wheels provided daily meals to 138 seniors and or disabled persons within Beloit. The Retired and Senior Volunteer Program was able to offer transportation services to 183 clients. And the Salvation Army was able to provide supportive services to 17 households.

Job Training: Stateline Literacy Council provided ESL instruction to 64 students. Community Action provided job training to 54 individualst hrough their THRIVE program. Project 16:49 assisted 21 homeless youth through their Transitional Living Program to develop life skills necessary to achieve their personal goals and achieve stable housing and self-sufficiency.

Comparison of the proposed versus actual outcomes for each outcome measure submitted with the consolidated plan and explain, if applicable, why progress was not made toward meeting goals and objectives. 91.520(g)

Categories, priority levels, funding sources and amounts, outcomes/objectives, goal outcome indicators, units of measure, targets, actual outcomes/outputs, and percentage completed for each of the grantee’s program year goals.

| Goal | Category | Source / Amount | Indicator | Unit of Measure | Expected – Strategic Plan | Actual – Strategic Plan | Percent Complete | Expected – Program Year | Actual – Program Year | Percent Complete |
|--------------------|--------------------|-----------------|--|------------------------|---------------------------|-------------------------|------------------|-------------------------|-----------------------|------------------|

|-----------------------|---|----------|---|------------------------|-------|------|--------|------|------|--------|

Table 1 - Accomplishments – Program Year & Strategic Plan to Date

Assess how the jurisdiction’s use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.

The City of Beloit utilized CDBG funds (2023 funds and prior year carry-over funds) to address the following objectives and priorities in 2023:

Improve Housing Stock

The following programs, which provided services that improved the housing stock for/of low/moderate income households, were funded:

- City of Beloit - Code Enforcement
- City of Beloit - Housing Rehabilitation Loan Program
- Community Action - Hackett and Merrill Neighborhood Clean-ups
- NeighborWorks Blackhawk Region - Direct Homeownership Assistance

Job Skills

Job skills and training programs received CDBG assistance to provide services to Beloit residents:

- Community Action – THRIVE program
- Project 16:49 – Robin House Transitional Living Project
- Stateline Literacy Council – Adult Literacy for Economic Prosperity
- Community Action – Merrill Community Center

Case Management Services

As part of their programming, the following Beloit CDBG funded programs received funds for case management services:

- Community Action - THRIVE program
- Community Action - Resources Navigator (NRSA)
- Community Action - Merrill Community Center (NRSA)
- ECHO - Emergency Eviction Prevention (City-Wide and NRSA)

- Family Promise of Greater Beloit - Emergency Shelter and Rental Assistance
- Family Services - Defy Domestic Abuse Beloit
- Family Services – Neighborhood Resilience Project Community Social Worker (NRSA)
- HealthNet - Primary, Dental, and Behavioral Healthcare to Beloit Residents
- Project 16:49 - Robin House
- Retired & Senior Volunteer Program of Rock County - Beloit Senior Volunteers
- The Salvation Army - Supportive Services

Addressing Priorities and Objectives Cont.

Homeless Services: The following Beloit CDBG funded programs provided assistance to homeless individuals and households or prevented homelessness: Beloit Meals on Wheels - Home Delivered Meals ECHO - Emergency Eviction Prevention (City-Wide and NRSA) Family Promise of Greater Beloit - Emergency shelter and rental assistance Family Services - Defy Domestic Abuse Beloit HealthNet - Primary, Dental, and Behavioral Healthcare to Beloit Residents Project 16:49 - Robin House The Salvation Army - Supportive Services Community Action - Resources Navigator (NRSA) Family Services - Neighborhood Resilience Project Community Social Worker (NRSA) Retired & Senior Volunteer Program of Rock County - Beloit Senior Volunteers

Affordable Housing: The following Beloit CDBG funded programs provided assistance that enable more affordable housing: NeighborWorks Blackhawk Region - Homebuyer Assistance City of Beloit - Housing Rehab Loan Program Community Action - Resources Navigator (NRSA) Family Services - Neighborhood Resilience Project Community Social Worker (NRSA)

The City of Beloit continued to experience low interest in the Housing Rehabilitation Loan Program in 2023. Many homeowners who have expressed interest in the program are weary of taking out a loan, particularly with high costs of supplies which requires homeowners to take out larger loans in order to address basic code and safety issues. The City's program does have guidelines to allow for a portion of the assistance to be grant funding and the other portion a low-

interest or deferred loan. This has been successful and 4 of the 5 owner-occupied rehab projects which took place in 2023 involved grant funding. Two of these projects were located within a NRSA neighborhood. The City will continue to evaluate its program and community needs in order to attract additional interest in the Housing Rehab Loan Program.

CR-10 - Racial and Ethnic composition of families assisted

Describe the families assisted (including the racial and ethnic status of families assisted).

91.520(a)

| | CDBG |
|---|------------|
| White | 561 |
| Black or African American | 374 |
| Asian | 9 |
| American Indian or American Native | 2 |
| Native Hawaiian or Other Pacific Islander | 2 |
| Total | 948 |
| Hispanic | 204 |
| Not Hispanic | 837 |

Table 2 – Table of assistance to racial and ethnic populations by source of funds

Narrative

The table provided above does not include all racial categories reported for 2023 CDBG beneficiaries. The table below accurately reflects the racial composition of Beloit's 2023 CDBG beneficiaries.

CR-15 - Resources and Investments 91.520(a)

Identify the resources made available

| Source of Funds | Source | Resources Made Available | Amount Expended During Program Year |
|-----------------|------------------|--------------------------|-------------------------------------|
| CDBG | public - federal | 678,559 | 854,924 |

Table 3 - Resources Made Available

Narrative

The City of Beloit reprogrammed unexpended CDBG-CV1 (\$28,347) and prior year CDBG funds (\$20,041.63) to support 2023 CDBG activities. Unexpended prior year funds which were carried over into 2023 were also expended, resulting in the amount expended exceeding the resources made available.

Identify the geographic distribution and location of investments

| Target Area | Planned Percentage of Allocation | Actual Percentage of Allocation | Narrative Description |
|---------------------------|----------------------------------|---------------------------------|--|
| Census Tract 16 - Hackett | 9 | 10 | See below Approximately \$65,500 or 9.6% for each NRSA |
| Census Tract 18 - Merrill | 9 | 10 | See below Approximately \$65,500 or 9.6% for each NRSA |

Table 4 – Identify the geographic distribution and location of investments

Narrative

The City of Beloit has utilized two different approaches when referring to the expenditure of CDBG funding. There are two HUD approved Neighborhood Revitalization Strategy Areas that have been identified. In expending the funds, the City of Beloit has allocated \$131,000 or 19.3% of the total 2023 CDBG Budget of \$678,559 for services in the two NRSAs. The remainder of the funds were divided between other City-wide services.

Activities that were undertaken in the NRSAs include the Merrill Community Center (Senior and Youth Programming), Community Action Resources Navigator, Family Services Community Social Worker, two community clean-up events hosted by Community Action (one in each of the NRSAs), Direct Homeownership Assistance through NeighborWorks, as well as, Emergency Eviction Prevention through ECHO.

The City has historically offered a Housing Rehabilitation Loan Program which is available to property owners city-wide. After additional public outreach to assess needs in the NRSA neighborhoods, specific incentives were developed for properties within the two NRSAs. The housing stock located in both the

16th and 18th census tracts is among the oldest in the City and also containing the lowest assessed and market values. The City revised its underwriting guidelines for the Houring Rehab Loan program to allow a higher loan-to-value ratio within the two NRSA neighborhoods.

In addition, although the City of Beloit has a Code Enforcement program that completes inspections city wide, CDBG funds are utilized to fund only those conducted in the City's LMI census tracts. In 2023, \$164,100 of the annual grant was allocated for inspection and code enforcement activities.

Although these actions were not funded with CDBG monies, the City of Beloit Police Department completed the following actions to work towards goals identified in the NRSA:

1. Implemented Community Policing Strategies: Neighborhood based, problem oriented, and intelligence led.
2. Enhanced statistical data analysis in order to assist with crime analysis, goals, and strategic development.
3. Improved transparency and communication regarding crime and prevalence of crime.

Community Policing Strategies: To promote community partnerships and trust, the Beloit Police Department (BPD) continued partnership with the local Crime Stoppers non-profit which offers monetary rewards for anonymous tips which lead to the arrest of people who have committed crimes. To promote accessibility and community policing, a bike patrol unit was established and expanded in 2023. In 2023, the BPD also hosted a city-wide National night Out event designed to promote police community partnerships and strengthen neighborhoods by bringing together residents and personnel from the BPD and Beloit Fire Departments. Police officers also partnered on several other community events, and established regular visit with local Fresh Start (YouthBuild) students to foster positive relationships with at-risk youth.

Enhanced statistical data analysis: The BPD uses local data as well as information gained through its close partnership with Crime Stoppers to inform crime deterrent and response strategies.

Improved transparency and communication regarding crimes: The Beloit Police Department posted weekly crime stats, daily arrest logs, and updated information on most wanted individuals on the department website and shared important information on social media.

Leveraging

Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.

A majority of the agencies that receive CDBG from the City of Beloit actually employ these funds as leverage for other funding sources. As such, there is a complimentary relationship between these federal funds and other funding sources.

Although there are no matching requirements for CDBG, the City and local agencies were able to leverage federal funding with the following resources:

- NeighborWorks Blackhawk Region - HOME, NSP, Federal Home Loan Bank, and private funding to provide down payment assistance to households in the City's targeted neighborhoods.
- Community Action received funding from multiple state and federal sources for its programs. The US Department of Labor Youthbuild programs, YouthBuild USA, Corporation for National and Community Services, State of Wisconsin Department of Children and Families, Community Service Block Grant, Foodshare Employment and Training (FSET), and the Affordable Care Act. In addition, Community Action receives private funding to supplement the THRIVE program and Merrill Community Center. United Way and the FSET programs supported the THRIVE program. Community Action also received NRSA funding to provide supportive services and assist in an emergency.
- Beloit's Business Community has continued to support local non-profits such as the Merrill Community Center, Community Action, the Stateline Literacy Council, and Project 16:49.
- Blackhawk Region United Way is a large supporter of many of the agencies that receive CDBG.
- The local religious community provided some funding. In addition, emergency shelter space has been provided for homelessness prevention, working closely in conjunction with Family Promise of Greater Beloit.
- The City of Beloit also received HOME funds through the Rock County Consortium. HOME funds are used to complement the City's private Capital Improvement funds, CDBG, and NSP funding for neighborhood improvements and housing rehabilitation initiatives.
- The City also partnered with the non-profit organization ACTS Housing to provide vacant tax foreclosure homes (pre-COVID foreclosures). ACTS works with households to become mortgage-ready and provides rehabilitation support and loans to rehab the property for buyers who want to live in those properties. ACTS Housing is funded entirely with private funding.
- In 2023, there was a total of \$40,585,097 worth of private investment throughout the City of

Beloit. In non-LMI areas the total investment was \$12,306,716, and in LMI neighborhoods the total private investment was \$28,278,381. This data was gathered through Building Permits issued.

- In 2023, there was a total of \$1,428,063 worth of public improvements made in LMI neighborhoods. These projects included parks improvements, converting underutilized tennis courts into pickleball courts, and watermain improvements in Census Tract 17 (\$821,081) and additional parks improvements and intersection reconstruction for improved traffic safety in Census Tract 18 (\$606,982).

CR-20 - Affordable Housing 91.520(b)

Evaluation of the jurisdiction's progress in providing affordable housing, including the number and types of families served, the number of extremely low-income, low-income, moderate-income, and middle-income persons served.

| | One-Year Goal | Actual |
|--|---------------|------------|
| Number of Homeless households to be provided affordable housing units | 279 | 310 |
| Number of Non-Homeless households to be provided affordable housing units | 0 | 0 |
| Number of Special-Needs households to be provided affordable housing units | 55 | 74 |
| Total | 334 | 384 |

Table 5 – Number of Households

| | One-Year Goal | Actual |
|--|---------------|------------|
| Number of households supported through Rental Assistance | 162 | 241 |
| Number of households supported through The Production of New Units | 0 | 0 |
| Number of households supported through Rehab of Existing Units | 10 | 5 |
| Number of households supported through Acquisition of Existing Units | 0 | 0 |
| Total | 172 | 246 |

Table 6 – Number of Households Supported

Discuss the difference between goals and outcomes and problems encountered in meeting these goals.

Service providers were able to meet and exceed the majority of goals identified for 2023. Many agencies continue to experience disproportionate demand relative to their capacity for services, resulting in wait-lists for many organizations and higher than anticipated participant levels in 2023.

The City did not meet its overall goals for job training and life skills programming, which was largely due to the fact that two agencies which were funded did not expend any of their CDBG funding in 2023. This

is because they are smaller agencies which have no past experience administering federal funding, so the City has worked very closely with them to develop the appropriate administrative systems and will allow them to carry-over their 2023 awards into 2024. While these programs did not have any 2023 CDBG beneficiaries to report, they are both local, grassroots organizations which primarily serve African American youth in the community. Therefore, we feel it is well worth the time and staff support needed to help these programs be successful in administering their CDBG funding in order to achieve community goals and reach underserved populations.

Discuss how these outcomes will impact future annual action plans.

The City will continue to conduct outreach and technical support to agencies, particularly smaller agencies which provide important services to the community but do not have experience with administering federal funds. Providing training and support for these agencies has also enabled them to seek additional funding sources with confidence that the administrative systems they have established are sound, which will further enable them to expand their capacity and meet the needs of underserved youth and residents.

Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.

| Number of Households Served | CDBG Actual | HOME Actual |
|------------------------------------|--------------------|--------------------|
| Extremely Low-income | 668 | 0 |
| Low-income | 201 | 0 |
| Moderate-income | 120 | 0 |
| Total | 989 | 0 |

Table 7 – Number of Households Served

Narrative Information

CDBG funds in 2023 were used to assist 668 extremely low-income individuals, 201 low-income individuals, 120 moderate-income individuals, and 52 non-LMI residents. Therefore, approximately 95% of Beloit’s 2023 CDBG funds were used to assist LMI residents.

CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)

Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The City of Beloit employed three specific strategies, building upon previously successful efforts, to address homelessness for the 2023 program year.

1. The City supported a Community Social Worker position (CSW) through Family Services. The CSW provided in-depth case management. This may have included the following services: mental health care, financial education, long term supportive services, emergency eviction prevention, and professional health care, among others.
2. Community Action's Resources Navigator (RN) position received continued support. The RN not only provided residents with information, but also provided support to them as they worked towards self-sufficiency.
3. Multiple local agencies received CDBG awards which were utilized to offer services and facilities for homeless persons in the City. In 2023, the following agencies received assistance so that homeless persons or persons at risk of homelessness could have resources: Beloit Meals on Wheels, Community Action, ECHO, Family Promise of Greater Beloit, Family Services of Southern Wisconsin and Northern Illinois, HealthNet, Project 16:49, Retired and Senior Volunteer Program of Rock County, and the Salvation Army.

Additionally, City staff actively participates in both the Homeless Intervention Task Force (HITF) and the Beloit Area Task Force on Homelessness. Both of these organizations work towards eliminating community silos and coordinating with each other to provide efficient services to Beloit residents.

Addressing the emergency shelter and transitional housing needs of homeless persons

The City of Beloit has determined that there are three key components of a successful transition from homelessness to housed:

1. Long Term Case Management
2. Supportive Housing
3. Client Advocacy

As such, the City has continued to provide CDBG support to agencies that offer the aforementioned components hand-in-hand with facilities for homeless persons in Beloit.

Through CDBG, the City of Beloit was able to provide funding and support to Project 16:49's

Robin House Transitional Living Program. Unaccompanied, homeless female students between the ages of 17-21 are able to access a safe place to reside. While living at the Robin House, they are able to work towards completing their high school education and transition to independent living. Case managers address key issues with the residents during their stay: education, housing, employment/income, health, and social-emotional well being. Through this work, residents are offered a safe place to heal from any past trauma and become a more well-rounded individual prepared for independent living. This program has been so successful that Project 16:49 was able to open a second transitional living program in Janesville for male students in 2019.

The Defy Domestic Abuse Beloit program received funding for case management. Receiving not only emergency short term shelter, survivors also are able to access on-going case management after leaving the shelter.

As part of the work being completed under the NRSA, Community Action and Family Services were both able to offer assistance regarding emergency shelter (motel/hotel vouchers) to families in need through the Resources Navigator and Community Social Worker positions.

In 2023, Family Promise of Greater Beloit was able to provide emergency shelter to up to nine (9) families at one time through their shelter site which opened in 2022. In addition to providing emergency overnight shelter, Family Promise of Greater Beloit continued to offer emergency eviction prevention assistance and first month/security deposit assistance for clients. They continued their "Keys to a Better Tenancy" program to teach participants how to be more desirable tenants.

Beyond CDBG, the City's Housing Authority (BHA) provides Section 8 and Public Housing for eligible applicants. BHA provides a preference if an applicant is a "Graduate of a Transitional Housing Program within the last six months". As a result, transitional housing directors and the BHA have established a good working relationship to continue the cycle of stable housing for transitional housing participants.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

As with many other communities around the country, the City of Beloit has a severe shortage of affordable housing units which makes it very difficult for service providers to identify stable housing opportunities for individuals and families they work with. This leads to it taking significantly longer for providers to help participants transition out of programs and into safe and stable housing, thus exacerbating the shortage of providers and resources resulting in wait-lists for the vast majority of programs funded through CDBG. Since it is significantly more difficult to find new housing than to maintain existing housing, the City allocated CDBG funds in 2023 to support several programs which provide emergency eviction prevention services to help individuals and families stay in their homes.

Several of these programs focused on Beloit's NRSA neighborhoods since these are areas with the highest concentrations of LMI residents and neighborhood stabilization was a central goal in the current NRSA Plan. Programs which provided emergency eviction prevention services in 2023 included:

- Community Action - Resources Navigator (NRSA)
- ECHO - Emergency Eviction Prevention (City-Wide and NRSA funding)
- Family Services - Neighborhood Resilience Project Community Social Worker (NRSA)
- The Salvation Army - Supportive Services (City-wide)

Helping LMI Individuals and Families Avoid Becoming Homeless cont.

In addition, tenants who receive housing assistance through Beloit Housing Authority's Section 8 and Public Housing programs are also eligible to participate in the Family Self-Sufficiency program. At the end of the FSS program, tenants will have successfully increased their earned income, reduced their dependence on assistance from welfare programs, and increased their self-sufficiency. Clients will work with one full-time FSS Coordinator to establish five-year employment and/or educational goals. The Beloit Housing Authority provides individuals and families the following resources to avoid homelessness: 131 public housing units and 603 Housing Choice Vouchers. In addition, in 2023 the BHA added a Homeless preference to its Public Housing and Housing Choice Voucher applications.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

The transition from homelessness to permanent housing is far more complicated than simply finding safe and sanitary housing. One of the most impactful strategies has been implemented in the long-term case management and follow-up for clients through the following approaches:

1. Staff support for the Defy Domestic Abuse Beloit program. Survivors were able to access food, clothing, and support groups during their stay in the shelter. Staff also is available for assistance after survivors exited the shelter.
2. ECHO is able to offer up to three month's worth of rental assistance, security deposit assistance, or utility assistance.
3. Family Promise of Greater Beloit received staff support funding in addition to emergency eviction prevention and security deposit assistance. As part of their program, FPGB has also introduced an educational component, "Keys to Good Tenancy" with the goal of providing information to beneficiaries on ways to be better and more desirable tenants.
4. The City is an active member of the Homeless Intervention Task Force and attends monthly meetings.

Members of the Rock County Continuum of Care are members and share updates and organizational activity with the members.

5. The City also began attending the newly formed Beloit Area Task Force on Homelessness (BATFoH) group, which meets monthly. This group is comprised of representatives from local service providers, local governments, and the school districts. This has helped in identifying gaps in the housing assistance cycle, and creating a better system of collaboration amongst local agencies.

The NRSAs have permitted Community Action and Family Services to provide in-depth assistance to the highest priority low-moderate income households in the City's most vulnerable neighborhoods. In addition to education, the Community Social Worker and Resources Navigator positions were able to offer security deposits, emergency eviction prevention, and utility assistance to avoid homelessness. The CSW and RN provided support before, during, and after homelessness for these beneficiaries, and also help connect them with mental health and other necessary services to help them heal from past trauma and receive the support they need. This personalized one-on-one support has provided clients the opportunity to identify possible triggers and causes of homelessness beforehand.

CR-30 - Public Housing 91.220(h); 91.320(j)

Actions taken to address the needs of public housing

The BHA meets residents' needs by providing various programs. The following opportunities were available to public housing residents during 2024: Family Self-Sufficiency Program (FSS) - Increase earned income and reduce the dependency on welfare assistance and rental subsidies. The term of this program is usually five years but can be extended for good cause if approved by the BHA. Special Programs Administrator- Connects residents with supportive services and activities that support their goal of economic independence and housing self-sufficiency. Housing Choice Voucher Program - The BHA administered 603 Housing Choice Vouchers. Through this program rent can be subsidized for eligible participants at participating rental units. The Beloit Housing Authority advertised available programs through local newspapers and radio stations. BHA staff have attended local senior, health, and family events to spread information about these opportunities.

Actions taken to encourage public housing residents to become more involved in management and participate in homeownership

There are at three ways in which residents are encouraged to participate in homeownership. The first of which is the aforementioned Family Self-Sufficiency Program. Any eligible public housing resident or housing choice voucher participant can apply to the FSS program. Members of the FSS program are encouraged to determine their own educational and career goals. As the member's income increases, their portion of the rent increases accordingly. The BHA will deposit the difference in the rental amount in an escrow account that the FSS member can use for a down payment on a home upon successful their portion of the rent increases accordingly. The BHA will deposit the difference in the rental amount in an escrow account what is disbursed to the participant upon successful completion of the program. The second approach towards homeownership is a well-established relationship between the BHA and NeighborWorks Blackhawk Region. Residents are able to access education, information, and financial assistance. NeighborWorks Blackhawk Region is able to offer down payment and closing cost assistance to eligible households. Finally, ACTS Housing, a non-profit based out of Milwaukee, has established an office in Beloit. BHA residents are encouraged to work with ACTS, and in fact, in 2019 a BHA resident became the first successful FSS graduate to purchase a home through ACTS Housing.

Actions taken to provide assistance to troubled PHAs

BHA's Special Programs Administrator works one-on-one with participants to assist them in meeting their identified goals and objectives and reducing their dependence on social service programs. In addition, BHA's FSS Coordinator also works with public housing residents to link them with needed services to increase their economic dependence.

CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)

Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)

During 2023, the City issued permits for 38 new single-family dwellings and no multi-family development permits. However, the City will be utilizing TIF Housing funds in 2024 to incentivize development of new affordable housing in the community, which remains a primary community concern and challenge to homeless and housing service providers.

Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)

The City utilized a multi-pronged approach to meeting underserved needs in 2023. The Division collaborated with local stakeholders, nonprofits, community leaders, businesses, and other interested parties to identify community needs and the strategies to be utilized.

Although sufficient funding is an obstacle to fully meeting underserved needs, the City of Beloit is strategic in allocation of resources in order to make the most with the limited resources awarded. In 2023, the City of Beloit supported the following activities and/or funded the following programs to address homelessness, transportation, affordable and sanitary housing, individual level case management, and employment training.:

1. Beloit Meals on Wheels - Ensure that seniors and/or disabled persons are able to remain homeowners as long as possible
2. Stateline Literacy Council - The support of adult literacy for persons with limited English proficiency to increase job skills and employability
3. Project 16:49 - Transitional Living Support for unaccompanied youth in Rock County
4. HealthNet - This organization provides medical, dental and behavioral healthcare at a rate clients can afford. This results in clients having the money necessary for rent or other financial needs.
5. Family Services - This organization offered case management for homeless survivors of domestic violence, and a NRSA specific initiative to provide in-depth case management for residents of one of Beloit's NRSA neighborhoods.
6. Family Promise of Greater Beloit - Emergency shelter, eviction prevention, and rental assistance
7. ECHO - Emergency eviction prevention
8. Community Action - This organization provided four different programs as a result of CDBG funding. The THRIVE program, a NRSA specific Resources Navigator, and the Merrill Community Center youth and senior programs.
9. City provided Housing Rehabilitation Loans to low-moderate income persons.
10. NeighborWorks Blackhawk Region - Down payment assistance, closing cost assistance, or low-dollar first mortgages.

11. Retired & Senior Volunteer Program - Beloit Seniors have access to free transportation to complete grocery shopping, attend doctor appointments, and other vital appointments.
12. Salvation Army - This program offered Emergency Eviction Prevention and rental assistance to avoid homelessness
13. Through HOME, acquisition, rehab, demo, reconstruction, and resale at Fair Market Value of housing units.
14. The Beloit Housing Authority operates a Family Self-Sufficiency program for Public Housing and Section 8 participants. This program provides training opportunities and intensive case management with the goal of increasing the family's income and reducing their dependence on public assistance programs.
15. Legal Action of Wisconsin worked closely with the City of Beloit to understand the needs of low-moderate income renters with regard to housing conditions. The organization assigned an attorney specifically to Beloit to work with residents who were experiencing inadequate or unsafe conditions in rental housing.

Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)

The City's Housing Rehabilitation Loan Program (HRLP) performs rehab work as "presumed lead" on all projects in/on pre-1978 housing. All projects are performed utilizing lead safe work practices and qualified lead certified contractors. All projects are monitored and inspected by the City's Housing Rehab Construction Specialist or our Project Engineer, both of whom are lead certified.

Rock County Health Department refers residents and landlords with residential property within the City of Beloit that have had a child under 6 years old with elevated blood levels. HRLP staff work with the landlord or homeowner to identify the lead based paint hazard within the property, and provides the property owner with a loan, forgivable loan, deferred loan, or combination of the three in order to reduce or eliminate the lead based paint hazard. However, with the existence of DHS's "Lead Safe Homes" program, the Rock County Health Department referrals were submitted to the state for that grant funding rather than referred to the City's HRLP program. The Wisconsin Department of Health Services has a "Lead Safe Homes" program that offers repairs to households receiving Medicaid or BadgerCare Plus.

During 2023 the City's Housing Rehab Loan Program (HRLP) staff and the Division of Water Resources worked together on developing a program to eliminate private lead service lines used to carry drinking water to residential properties in anticipation of a grant provided through the DNR's Safe Drinking Water Loan Program. The City launched the program in 2022. In 2023, a total of 15 households were served with 16 located within a NRSA neighborhood. Although this project does not address lead based paint, we believe it is an important program that will reduce additional exposure to lead within our community. The Housing Rehab Loan Program staff will administer the program and will work with households to obtain an HRLP loan if needed to complete the project or address other issues within their home. Now that the program has been established, additional outreach will take place in 2024 to increase program participation.

Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)

The City of Beloit has undertaken various actions to reduce the number of poverty-level families. Through the Beloit Housing Authority, families have access to the Family Self-Sufficiency Program. This provides individual case management to enrollees to establish goals related to employment, education, finances, and homeownership. Additionally, the BHA enforces HUD's policy requiring public housing tenants to perform eight hours of community service per month (when the participating adult does not have a disability, is unemployed, and is not participating in any self-sufficiency activities). Residents are able to learn new skills through this practice.

Actions taken to develop institutional structure. 91.220(k); 91.320(j)

The City of Beloit is developing institutional structure that includes private industry, non-profit organizations, and public institutions to implement its housing and community development plan. As agency silos have been identified as an impediment to successfully serving the needs of Beloit residents, this structure has been improved immensely over 2023. There are four imperative efforts that the City is has implemented to develop and enhance coordination which are described below:

- **City Membership in the Homeless Intervention Task Force (HITF)** - This group consists of agencies and local government representatives from Rock and Walworth Counties. There are at least six meetings a year to share new resources, news, and updates relating to homelessness and other related services. This is also the Continuum of Care for Rock County so all City of Beloit CDBG Subrecipients must participate and coordinate with other agencies in the area.
- **City Participation in Beloit Task Force on Homelessness (BATFoH)** - This group consists of agencies, private industry representatives, government representatives that are focused on ending homelessness within the City of Beloit.
- **Rock County HOME Consortium** - The consortium enhances coordination between the City of Beloit and City of Janesville, specifically in regards to new, single family construction and rehab/resale projects.
- **City CDBG Funding of NRSA Neighborhood Resilience Project Community Social Worker and Resources Navigator** - These positions, funded through the two designated NRSAs, were established to be "the link" for residents and requested services. The goal was to have one or two dedicated staff persons in the community that Beloit residents could turn to for questions and information when help was needed. This can include, but is not limited to: mental health counseling, financial education, rental assistance, etc.

In 2019, the City moved the Public Transit Division from the Department of Public Work to the Community Development Department. This not only allows for much more input from the public and service provider agencies on Transit Development Plans (TDP), but also allows the Transit Division to consider the transportation needs outlined in the Consolidated Plan, Neighborhood Revitalization Strategy Area (NRSA) Plan, and Analysis of Impediments to Fair Housing (AI). In 2020 and 2021, Beloit Transit's fixed route system was completely revised to better serve the City's low-moderate income

census tracts, community centers, schools, and employment corridors. In 2023 the city conducted a microtransit study to analyze the possible impacts and benefits of offering a mix of fixed route and flexible public transportation options.

In addition, the City has placed informational brochures in the main lobby of City Hall relevant to homeownership opportunities, weatherization services, senior services, and others

Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)

Public Housing and Section 8 participants are directly linked with Federal, State, and local service agencies through the Family Self-Sufficiency Program. These connections provide a variety of opportunities and resources to assist families in becoming more self-sufficient. A full time FSS coordinator is employed by the BHA to act as a liaison to link the agencies with the participants.

City Staff participates in the Homeless Intervention Task Force, which is composed of service agencies through-out Rock and Walworth Counties. Public Housing agencies are also members.

In 2020, the Beloit Area Task Force on Homelessness (BATFoH) was created and continues to work towards ending homelessness specifically within the City of Beloit. Service agencies, City Staff, and other relevant organizations are members of this group. As Beloit's struggles differ from other cities within Rock and Walworth Counties, this permits a more specialized approach than HITF. In 2023, the group worked to developed a shared Release of Informaiton (ROI) which would enable providers to come together and provide better coordinated support to homeless families and individuals. This approach is centered on identifying and addressing individual and family needs, and is referred to as "staffing the family." They were able to serve 14 families through this model in 2023.

The City has also made efforts to increase access to homeownership opportunities. This can be seen through partnerships with Community Action, NeighborWorks, ACTS Housing, and the Purchase/Rehab/Resale program that is being operated under the NRSA's efforts.

City Code Enforcement officials coordinate with the appropriate service agencies when they encounter situations outside of their realm on expertise. For example, in the event of hoarding or seniors unable to care for themselves, Code officials will contact Rock County's Aging and Disability Resource Center (ADRC).

The City of Beloit and City of Janesville both have Section 3 Plans with similar procedures, universal forms, and reports that can be utilized by Section 3 businesses and Section 3 residents in both communities. Due to the close proximity of the two cities, many contractors and residents work in both communities.

Identify actions taken to overcome the effects of any impediments identified in the

jurisdictions analysis of impediments to fair housing choice. 91.520(a)

The City's Analysis of Impediments to Fair Housing was completed in 2019. The Equal Opportunities Commission (EOC) began strategizing goals and action steps to address impediments identified in the Analysis. Due to consistent difficulties in achieving a quorum to hold EOC meetings in 2022, in 2023 the City reduced the required quorum size by one. This change helped tremendously, and the EOC has since been able to hold all regularly scheduled meetings with a quorum of members present.

Actions taken to address impediments to fair housing in 2023 included:

- The EOC drafted a Request for Proposals (RFP) for Fair Housing public education, training, and testing services. The RFP will be released in early 2024.
- Legal Action of Wisconsin hosted community education events, as well as trainings for service providers to build broader awareness and understanding of tenant rights.
- The City funded Legal Action of Wisconsin through ARPA funding to assist households experiencing evictions and/or unsafe property conditions. Legal Action offers free legal advice, assistance and representation in court depending on the needs of the participant.

In addition to working towards action steps, the EOC also administers and enforces the City's local Fair Housing Ordinance. Fair Housing complaints are received by City Staff, referred to an Investigator, and conciliation/mediation is facilitated if necessary. The EOC will hear administrative appeals regarding determinations of probable cause and conducts full hearings when needed to determine whether housing discrimination has occurred. The EOC has the authority to impose fines and award damages.

In 2023, the City received a total of four complaints. Two of the four cases were landlord/tenant issues and the complainants decided not to move forward with filing a formal complaint. Both were referred to Legal Action of Wisconsin for free legal assistance. One of the cases involved a property with a Section 8 voucher, and was therefore referred to the State of WI. The City received notice in early 2024 that this case was dismissed by the DWD Equal Rights Division. The final case was referred to the independent investigation firm the City of Beloit contracts with, who conducted interviews with both the complainant and respondent. Ultimately, the investigation found that there was no probable cause for discrimination by the independent investigators and reviewed by the City Attorney's office for concurrence. Both the complainant and respondent were notified of the appeal period, and no appeal of the decision was received.

CR-40 - Monitoring 91.220 and 91.230

Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements

As part of the CDBG subrecipient application process, applicants are required to document the manner in which their proposed program will comply with National Objectives, Eligible Project Types, and local funding priorities. City staff review every application and project description to ensure that the project, if funded, will further the plan.

As a condition of receiving the CDBG award, subrecipients understand and agree to quarterly reporting to the City in regards to their services. During the quarterly reviews, city staff monitors activities the subrecipients have taken thus far and addresses any compliance issues that arise. All draw requests must include back-up documentation which is also reviewed by City staff before approving reimbursements for CDBG funded activities.

The City also conducts on-site annual monitoring of all its subrecipients. During the monitoring visit, staff will review client and financial files to ensure long term compliance with CDBG requirements. In 2023, monitoring was conducted to review subrecipient for PY2022 and completed CDBG-CV activities.

During the most recent Consolidated Planning process it was determined that there was less of a need for large economic development loans and more of a need for smaller business loans. The City was able to offer CDBG funding to WWBIC, to provide loans and grants to small businesses and micro-enterprises through the CARES funding as well as our annual CDBG funds.

With the the City of Beloit's most recent Consolidated Plan, we expanded our approach to public input. In addition to hosting traditional public meetings at City owned locations and providing surveys, City staff conducted and increased and comprehensive community outreach through attending community events. This has expanded the demographics of individuals that have contributed to the planning process. In addition, City staff has begun holding and attending public outreach meetings each year to understand gaps in service and the changing needs in the community during the span of the Consolidated Plan.

Citizen Participation Plan 91.105(d); 91.115(d)

Describe the efforts to provide citizens with reasonable notice and an opportunity to

comment on performance reports.

When the CAPER is available for comment, the City of Beloit publishes a notice in the Beloit Daily News and the City of Beloit website. Copies are also made available at City Hall and Beloit Public Library. There is a thirty (30) day public review period, two public hearings are held, and a presentation on CDBG accomplishments is presented before the Community Development Authority (CDA) Board and City Council in conjunction with the public hearings. Any public comments received during the public review period, public hearing, or presentation are incorporated into the CAPER before being submitted.

In 2024, the public review period was held from February 28 to March 28. City Council held a public hearing on March 18, 2024 in conjunction with a presentation of 2023 CDBG accomplishments. The public hearing was noticed according to requirements established in the City's Citizen Participation Plan. No public comments were received during the public hearing. The final CAPER was submitted to HUD on March 29, 2024 following the 30-day public comment period.

CR-45 - CDBG 91.520(c)

Specify the nature of, and reasons for, any changes in the jurisdiction's program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.

The City of Beloit does not foresee many substantial changes to our objectives. At the core, we are committed to providing safe, sanitary housing to residents, assist/prevent homelessness, create/retain jobs, increase property values/improve housing stock, and assisting special needs populations. This being said, the City recognizes that the methods for meeting these goals evolve and morph over time as well as current life events.

Does this Jurisdiction have any open Brownfields Economic Development Initiative (BEDI) grants?

No

[BEDI grantees] Describe accomplishments and program outcomes during the last year.

CR-45 - CDBG 91.520(c)

Table 9 – Qualitative Efforts - Number of Activities by Program

Narrative

- The Community Action Resources Navigator and Neighborhood Resilience Project Community Social Worker worked with individuals and families to identify their unique needs and barriers to meeting those needs, and provided direct services as well as referrals to other community resources.
- All of the Request for Proposals (RFP) have Section 3 information and certification documents in them.
- All RFPs are sent to the Beloit Housing Authority. The BHA is the Public Housing Authority in the community.
- All contracts require businesses to complete the Section 3 certification document indicating whether they are a Section 3 business concern.
- All construction projects over \$200,000 had Section 3 posters posted at the job site.
- Attempted to recruit low-income residents through: local advertising media, signs prominently displayed at the project site, contacts with community organizations and public or private agencies operating within the metropolitan area (or nonmetropolitan county) in which the Section 3 covered program or project is located, or similar methods.
- Participated in a HUD program or other program which promotes the award of contracts to business concerns which meet the definition of Section 3 business concerns.
